

Benefactor Program

Benefactors enjoy peace of mind.

The idea to build a coastal hospital in Orange County began as the dream of a dedicated community, led by a group of visionaries intent on bringing quality healthcare to their local area. In 1952, Hoag Hospital opened its doors as a 75-bed, acute-care community hospital.

Today, Hoag is widely recognized as one of the premier healthcare providers in Southern California, offering state of the art, comprehensive care at facilities located throughout Orange County.

Hoag's growth and transformation over the years has largely been made possible by the support of the philanthropic community, whose combined efforts have paved the way for Hoag to become the outstanding healthcare organization it is today.

As a gesture of gratitude, Hoag Hospital Foundation established our Benefactor Program in 2003 to honor and thank our most generous supporters.

Our benefactors enjoy exclusive access to a team of compassionate and experienced benefactor liaisons who facilitate your healthcare journey across Hoag's many facilities. Available 24/7, our liaisons will assist you with scheduling and referral requests, and will even meet you in the Emergency Department. All you need to do is call our Benefactor Hotline, and we will be there waiting to assist you.

Offering you this kind of peace of mind is our way of saying, "Thank you," for your generous support. We couldn't have done it without you.

The Benefactor Experience

- ✓ Immediate assistance 24 hours/day, 7 days/week
- ✓ Dedicated telephone hotline available to benefactors
- ✓ Registration assistance
- ✓ Appointment scheduling
- ✓ Medical records assistance
- ✓ Personalized assistance during appointments, surgeries or Emergency Department visits
- ✓ Quiet, private waiting area
- ✓ Floral and newspaper delivery
- ✓ Catered guest meals
- ✓ Personal care items
- ✓ Assistance with specialized personal requests
- ✓ Other requests as available

It's Our Way of Saying...

...Thank You!

"Thank you so much for taking such good care of my wife during her hip replacement surgery at Hoag. There were lots of nice little things like newspapers and flowers, but the best part was the personal conversations with benefactor liaisons who stopped by daily to say 'Hello'. Your impact is very positive and powerful."
