

# Expanding Health Care Excellence

## Hoag's Sun Family Campus – Irvine

Hoag's Sun Family Campus in Irvine is undergoing a major expansion, transforming into a world-class destination for specialized care. This growth includes six new buildings, 120,000 square feet of ambulatory facilities, 155 inpatient beds, 11 operating rooms, and two new parking structures to support increased capacity. This expansion isn't just about growth—it's about redefining health care and setting a new standard for excellence across Orange County and beyond.

### Surgical Pavilion

The 130,000-square-foot Surgical Pavilion will be the largest new structure on campus and a significant leap forward in surgical innovation. It expands operating capacity with state-of-the-art operating rooms, advanced robotic technology, and an intensive care unit thoughtfully designed to enhance the patient and family experience. This pavilion seamlessly blends cutting-edge technology with calming, healing environments to support better outcomes and comfort. Recognizing the demands of surgical care, the building incorporates dedicated spaces for staff to unwind and recharge, supporting their well-being.

### Features:

- 8 state-of-the-art operating rooms, including hybrid and cardiovascular suites
- Advanced robotic-assisted surgery technology
- Real-time surgeon-pathologist integration, reducing processing time during procedures
- Intensive care unit with family room and balcony
- Dedicated lounge and courtyard space for staff

### Boldly Hoag Campaign

The Boldly Hoag campaign centers on three key initiatives: elevating the patient experience, recruiting and retaining top talent, and designing and building the future of health. Hoag's expansion in Irvine through this campaign marks the beginning of a long-term vision to grow capabilities and expand access to high-quality health care. Underpinning this approach is Hoag's privademic model—blending the personalized care of a private hospital with the academic rigor of research and discovery—to redefine what's possible in community health care.
