

# Expanding Health Care Excellence

## Hoag's Sun Family Campus – Irvine

Hoag's Sun Family Campus in Irvine is undergoing a major expansion, transforming into a world-class destination for specialized care. This growth includes six new buildings, 120,000 square feet of ambulatory facilities, 155 inpatient beds, 11 operating rooms, and two new parking structures to support increased capacity. This expansion isn't just about growth—it's about redefining health care and setting a new standard for excellence across Orange County and beyond.

## Women's Care on the Sun Family Campus

Hoag's new facility dedicated to women's health will feature a full-service inpatient hospital alongside a comprehensive outpatient pavilion. This expanded campus will further elevate the comprehensive, compassionate care provided by our Women's Health Institute. We support women through every journey of life—from overall health and wellness to fertility, maternity, breast care, menopause, and beyond. As California's busiest maternity hospital, Hoag is projected to deliver more than 12,000 babies annually with the addition of the Sun Family Campus in Irvine, complementing our Newport Beach campus. Hoag is also a leader in breast cancer care, providing advanced treatments and access to clinical trials. With innovative wellness programs, we aim to recruit top clinicians and drive impactful research.

### Features:

|           |  | Maternal Fetal Medicine                             |

## Boldly Hoag Campaign

The Boldly Hoag campaign centers on three key initiatives: elevating the patient experience, recruiting and retaining top talent, and designing and building the future of health. Hoag's expansion in Irvine through this campaign marks the beginning of a long-term vision to grow capabilities and expand access to high-quality health care. Underpinning this approach is Hoag's privademic model—blending the personalized care of a private hospital with the academic rigor of research and discovery—to redefine what's possible in community health care.

# Key Philanthropic Opportunities
