

# Mary and Dick Allen Diabetes Center

Diabetes affects more than 24.7 Americans, with nearly 200,000 people with diabetes living in Orange County. People with diabetes often face numerous barriers to receiving the care they need, from difficulty navigating the health care systems, to inefficient communication between specialists, to lack of readily accessible, culturally sensitive educational resources.

Thanks to philanthropy, the Mary and Dick Allen Diabetes Center provides comprehensive services for both adults and children with diabetes. We offer clinical, educational and psychosocial support services designed to meet the needs of patients with diabetes and their families.

For more information about the Mary and Dick Allen Diabetes Center and how you can support Hoag, please visit [www.HoagPromise.org](http://www.HoagPromise.org) or contact:

**Nicole Burelli**
